

Permit Application Checklist

Print this checklist to make sure you have not left anything out of your Permit Application. Your application packet should include:

- Signed Application for Ameren Missouri Permit
- Specification sheet
- A summary of the proposed use's expected impact on the environment and compliance with Ameren Missouri guidelines
- Drawings to scale showing all measurements and elevations as specified on Application for Ameren Missouri Permit
- Breakwaters and docks over 3,000 square feet, registered engineer drawing
- Processing Fee (according to the Fee Schedule)
- Permit Fee must be submitted with application. If the dock is subject to an annual use fee, do not send it with the application.
- For proposed uses that will require FERC review and approval (See Table 5 in the SMP), an explanation of compatibility with Commission-approved management plans, project operations and purposes, applicable license requirements, as well as Application for an Ameren Missouri Permit. Pre-application conferences are recommended with Ameren Missouri staff prior to submitting commercial and residential dock request over 10 slips.
- Fire District permit or approved electrical system inspection (find [participating fire districts](#)).

Send your application packet to:

Ameren Shoreline Management Office
3 Willmore Lane
Lake Ozark, MO 65049

After your application packet is received, Ameren Missouri will:

- Review the application.
- Request any necessary approvals from federal, state or local agencies.
- Approve the application as submitted, approve the application with conditions or deny the application.
