Re: 0190100008--Champaign County
Champaign/IP Town Gas
Site Remediation Program/Technical Reports

Dear Mr. Martin:

The Illinois Environmental Protection Agency (“Illinois EPA”) has completed review of the *Evaluation of Soil Gas Data Collected at the Residential Properties near Former MGP Site* (“Report”/Log No. 08/39843) dated December 2008. The Report, submitted by RAM Group, was received by the Illinois EPA on December 12, 2008.

The Illinois EPA reviewed the Report with the intention of determining if any off-site contamination has impacted soil gas in and around the affected residential properties. Reviewing the information, the Illinois EPA concurs the soil gas concentrations identified at the three off-site residential properties do not exceed the remediation objectives currently proposed in the 35 Illinois Administrative Code Part 742 updates.

Please continue to send one original and two copies of all submitted information. If you have any questions, please feel free to contact me at above telephone number, address or e-mail me at Greg.Dunn@illinois.gov.

Sincerely,

Gregory W. Dunn, L.P.G., Manager
