NATURAL GAS OPERATIONS

Ameren Missouri

Ameren Missouri is the state's second largest distributor of natural gas. Ameren Missouri supplies natural gas service to approximately 132,000 customers. Ameren Missouri serves gas customers in more than 90 communities, including towns in southeast, central and eastern Missouri. The company owns 3,300 miles of natural gas transmission and distribution mains.

RATES AND REGULATION

Ameren Missouri

Electric

Ameren Missouri's average electric rates are among the lowest of any investor-owned utility in Missouri. Ameren Missouri's electric operating revenues are subject to regulation by the Missouri Public Service Commission. If certain criteria are met, Ameren Missouri's electric rates may be adjusted without a traditional rate proceeding.

The Fuel Adjustment Clause (FAC) permits Ameren Missouri to recover, through customer rates, 95% of changes in net energy costs greater than or less than the amount set in base rates without a traditional rate proceeding. Net energy costs, as defined in the FAC, include fuel and purchased power costs, including transportation charges and revenues, net of offsystem sales.

Natural Gas

Ameren Missouri's gas rates may be adjusted without a traditional rate proceeding for changes in the wholesale costs of gas, which are passed through to customers without mark-up from the company (the purchased gas adjustment, or PGA).
