
TAX ADDITIONS

1. STATE TAX ADDITIONS

A. Electricity Excise Tax

Section 2-4 of the Electricity Excise Tax Law imposes an electricity excise tax on the privilege of electric use measured by the kilowatt-hours (kWhs) delivered to the purchaser. The tax is imposed on the privilege of using in this State electricity purchased for use or consumption and not for resale, other than by municipal corporations owning and operating a local transportation system for public service, at the following rates per kWh delivered to the purchaser:

- (a) For the first 2000 kWhs used or consumed in a month: 0.330 cents per kWh;
- (b) For the next 48,000 kWhs used or consumed in a month: 0.319 cents per kWh;
- (c) For the next 50,000 kWhs used or consumed in a month: 0.303 cents per kWh;
- (d) For the next 400,000 kWhs used or consumed in a month: 0.297 cents per kWh;
- (e) For the next 500,000 kWhs used or consumed in a month: 0.286 cents per kWh;
- (f) For the next 2,000,000 kWhs used or consumed in a month: 0.270 cents per kWh;
- (g) For the next 2,000,000 kWhs used or consumed in a month: 0.254 cents per kWh;
- (h) For the next 5,000,000 kWhs used or consumed in a month: 0.233 cents per kWh;
- (i) For the next 10,000,000 kWhs used or consumed in a month: 0.207 cents per kWh;
- (j) For all electricity in excess of 20,000,000 kWhs used or consumed in a month: 0.202 cents per kWh;

TAX ADDITIONS

Non-residential electric purchasers have the option to register with the Department of Revenue of the State of Illinois to become a self-assessing purchaser of electricity. In lieu of the foregoing rates, the tax is imposed on a self-assessing purchaser at the rate of 5.1% of the self-assessing purchaser's purchase price for all electricity distributed, supplied, furnished, sold, transmitted and delivered to the self-assessing purchaser in a month.

This tax shall be collected from the purchaser, other than a self assessing purchaser, by the Company and shall be remitted to the Department of Revenue of the State of Illinois. A self assessing purchaser is required to pay the tax directly to the Department of Revenue of the State of Illinois.

* B. EDT Cost Recovery

Section 1 of the Public Utilities Revenue Act imposes a Distribution Tax on the Company based on the quantity of electricity that is delivered in the State of Illinois. This tax is a replacement for the invested capital tax on electric utilities. In order to recover the Distribution Tax amount imposed upon the Company by the State of Illinois from Customers taking electric delivery service from the Company, the Company will collect from such Customers an EDT Cost Recovery based on the Customer's electric use as measured in kilowatt-hours (kWhs) which are delivered to the Customer. The EDT Cost Recovery charge to be applicable to each kWh delivered to Customers taking service under each applicable Rate is shown in the Delivery Charges Informational Sheet supplemental to the Rate MAP-P tariff.

The EDT Cost Recovery shall be shown as a separate line item on Customers bills.

TAX ADDITIONS

2. MUNICIPAL TAX ADDITIONS

Pursuant to the provisions of The Public Utilities Act, as amended, the Company will make an additional charge to its customers receiving service in municipalities imposing the tax authorized by Section 8-11-2 of the Illinois Municipal Code. Said additional charge will be separately shown on each such customer's bill and designated "Municipal Charge" or by a similar legend.

The tax additions shown on the following Sheets include an allowance of three percent of the tax to cover the administration expense associated with accounting and collection in accordance with Section 8-11-2 subsection 4 (c) of the Illinois Municipal Code.

The effective date for such additions will coincide with the date upon which billings become subject to the tax so levied.
